

Hello,

Thank you for making this web page available for comments. I heard that you are requesting responses from the community on what they think about the KLOVE station on 88.5 FM radio--Anchorage, AK. This station was recently made available to my area and I have been listening to it ever since. It is also available in Fairbanks, that I know of, and other locations in AK and the lower-48, as well. Please keep this station on the air. There are two other Christian stations, both which I greatly enjoy and hope they stay, too. But KLOVE is the only station that plays music--non-stop--that is mood lifting, smile making, decreasing road rage, and even helps curb Seasonal Affectiveness disorder for us Alaskans that can't handle the dark days so well! Not to mention the message that's in the music--literally life-saving to the person that believes God. I thank you in advance for your help in any way to keep KLOVE in Alaska and all over the world via the internet. My days are brighter because of KLOVE.
